CGPA: 9.80/10

2018

Gnan Vikas Vidya Niketan

10th Grade (SSC) Board of Secondary Education, AP

CGPA: 10.0/10

PROJECTS

E-Farming

The main aim of E-farming project is to build a web application for farmers to sell the product at better rate without any involvement of third party. Me along with my team did this project in hackathon conducted by my college.

Greatkart

It is an E-Commerce web application to sell products online. It provides the user with a catalog of different product available for purchase in the store. In order to facilitate online purchase a shopping cart is provided to the user. I have taken a course on udemy on how to build ecommerce website using Django.

 <https://github.com/rijvanamd26/greatkart-djangoproject>

Student Information Management System

It is a web application in which we can add, read, update and delete Student Information

 https://github.com/rijvanamd26/django_student_info_management_app

Learning Guide

Learning guide is a website in which BTech students can get study materials, model papers, video lectures of all subjects and can even interact with ALUMNI for any career guidance.
